

Homicide Survivors Art Support Group

Please join us for a series of new and innovative support groups. There will be a variety of art projects for you to create a loving tribute to that loved one who was taken from you all too senselessly. This is a safe environment for you to be able to process further this devastating event in your life and receive the support you need.

Activities

- *Make a Memory box to fill with memories of the one you lost to homicide.*
- *Create a drawing or art piece in memory of your loved one.*
- *Give yourself time to remember the good memories by writing them down to add to your memory box.*
- *Take a couple of hours for yourself and simply have fun making your own creation by awakening your inner artist.*
